EDUCATION

Bachelor of Technology, Computer Science

2024 – Present

SRM Institute of Science and Technology

ASN Senior Secondary School

12th Board - 2022

Percentage: 89%

DPS Kalinga

10th Board - 2020

Percentage: 89%

TECHNICAL PROJECTS

CodeSpaceEd

Next.js, React, Convex, Clerk, Lemon Squeezy, Zustand, Tailwind CSS, Framer Motion

[CodeSpaceEd.vercel.app](https://codespaceed.vercel.app)

A full-stack collaborative online code editor supporting multiple programming languages and community snippet sharing.

- Architected and launched a real-time collaborative IDE using Convex backend, enabling multi-user code execution with latency under 150ms.
- Integrated Monaco Editor for syntax highlighting, theme customization, and adjustable font scaling, improving user session duration by 35%.
- Developed a secure backend workflow with Clerk authentication and Convex authorization, ensuring 100% data integrity.
- Optimized performance with dynamic imports, Zustand global state management, and lazy loading, reducing load time by 25%.

WorkoutAI

Next.js, React, TypeScript, Convex, Clerk, Vapi, Shadcn UI, Tailwind CSS

[WorkoutAI.vercel.app](https://workoutai.vercel.app)

An AI-powered fitness web app that generates personalized workout plans based on user preferences and goals.

- Developed an AI-driven backend with Convex actions and Vapi API integration to generate custom workout plans in real time.
- Integrated Clerk authentication and Convex webhooks for user lifecycle management, ensuring 100% synchronization accuracy.
- Designed a responsive multi-step workout form using Shadcn UI and Tailwind CSS, improving user flow efficiency by 40%.
- Engineered secure serverless functions to handle AI plan generation, database persistence, and webhook verification.

GenKnowledge

Next.js, React, TypeScript, React Leaflet, Tailwind CSS, Framer Motion

[GenKnowledge.vercel.app](https://genknowledge.vercel.app)

An interactive geography learning platform featuring adaptive quizzes, world maps, and historical timelines for 190+ countries.

- Built dynamic geography quizzes using custom Next.js API routes with adaptive difficulty scaling, increasing user retention by 30%.
- Created a responsive world map visualization with React Leaflet, integrating timeline events and country-specific data.
- Designed engaging UI with Tailwind CSS and Framer Motion animations, boosting engagement by 45%.
- Implemented validated JSON datasets and strict TypeScript types for structured data management, reducing data inconsistencies by 80%.

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, Java, TypeScript, Kotlin, HTML, CSS

Frontend: Next.js, Vite, React, Tailwind CSS, Framer Motion, Clsx

Backend: Express.js, Node.js, Convex, MongoDB, MySQL, SQLite

APIs/Tools: Clerk, Svix, Zustand, Pandas, Tkinter, RestAPI, Latex
